

People Store ranked as the #1 Staffing Firm to do business with!

Seen here front and centre, John Nalli President & CEO of Canada's premier staffing service stands with key Head Office personnel as his company is recognized as 2013's Top Ranked Staffing Firm.

This year's 2013 Reader's Choice Award goes to People Store Staffing Solutions as the #1 Ranked "Best Employment and Staffing Firm". This has been the seventh (7th) time People Store has been recognized as "The Best" staffing firm to do business with.

This ranking comes hot off the heels of the company's 2013 listing as one of Canada's Top 500 Companies. People Store ranked #42 in this year's listing of the country's top 500 growth companies.

The Canadian staffing industry is an extremely competitive sector, with over 200 active staffing firms in the GTA alone. Whether an employer or a jobseeker, the choice of which organization to partner is an important decision. Factors to consider in choosing who will best represent you or your firm can include: which organization adheres to all government regulations, which firm can be counted on to deliver results, and which company is considered "Best in Class". Each year a public survey is conducted based on these criteria in a quest to determine which staffing firm stands out from the crowd.

Opening its doors in Mississauga in 2003, this company has made a vigorous impact in the Human Resources and Staffing Industry. As one of the largest staffing firms in GTA, People Store breaks the mold of other agencies with efficient, flexible, responsive and experienced recruiters who attract competitive candidates and support employers to ensure the right hire, every time. With an extensive and qualified database, People Store successfully matches thousands of job seekers with employment opportunities each year.

John Nalli, President & CEO of People Store, began this enterprise after gaining several years of experience with other highly reputable staffing firms in Ontario. Frustrated with the larger firms' lack of attention to client needs, John decided to venture out and create a model that other staffing firms could emulate. Having won awards for business excellence and industry growth, People Store is leading the industry with quantified results.

People Store also believes in leading by example. This is demonstrated with an internal code of ethics embracing, honesty, integrity and partnership towards both clients and employees. The company gives back to the communities it represents by sponsoring a number of not-for-profit organizations and community betterment programs.

This spirit and dedication has proven to be one of the company's greatest assets. "This is the outcome of a lot of hard work," says People Store President, John Nalli. "I'm really excited for the future of this firm and all the employees who help make this a great place to work. If we're able to achieve these milestones year after year, the sky certainly is the limit. We will continually strive to help shape the future of the Canadian Staffing Industry."
